CITY OF LAKE CITY DATA PRACTICES PROCEDURES

1.0 Introduction. These procedures are adopted to comply with the requirements of the Minnesota Government Data Practices Act (the “Act”), specifically Minnesota Statutes Sections 13.025, 13.03, subdivision 2 and 13.05, subdivision 5. It is the intent of the City of Lake City (the “City”) to remain in compliance with the Act. These procedures shall be supplemented by the requirements of the Act as needed and if any procedure contained herein is inconsistent with those requirements, as they may be amended, the specific provisions of the Act shall be controlling.

2.0 Responsible Authority. The City Clerk is the Responsible Authority and Compliance Official responsible for the collection, use and distribution of government data and is accountable for City compliance with the Minnesota Government Data Practices Act. The Responsible Authority has authorized certain other City employees to collect, maintain, disseminate and otherwise assist in complying with the Act (“Designees”). These Designees are listed on attached Exhibit 1. The Responsible Authority shall provide training to Designees and staff at such times and in such a manner as the designated Responsible Authority determines is appropriate to inform them of their obligations under the Act. The designated Responsible Authority shall also be authorized to amend or supplement the Exhibits attached to these procedures as needed to further the intent of these procedures and the City’s compliance with the Act. For the purposes of carrying out these procedures, the term Responsible Authority shall include Designees unless the context in which it is used indicates a different intent.

3.0 Access to Public Data. All information maintained by the City is public unless there is a specific statutory designation which gives it a different classification. Categories of classification are as follows:

Data on Individuals* M.S. § 13.02, subd. 5	Data on Decedents M.S. § 13.10, subd. 1	Data not on Individuals* M.S. § 13.02, subd. 4
Public Accessible to anyone M.S. § 13.02, subd. 15	Public Accessible to anyone M.S. § 13.02, subd. 15	Public Accessible to anyone M.S. § 13.02, subd. 14
Private Accessible to the data subject; Not accessible to the public M.S. § 13.02, subd. 12	Private** Accessible to the representative of the decedent; Not accessible to the public M.S. § 13.10, subd. 1(b)	Nonpublic Accessible to the data subject; Not accessible to the public M.S. § 13.02, subd. 9
Confidential Not accessible to the data subject; Not accessible to the public M.S. § 13.02, subd. 3	Confidential** Not accessible to the representative of the decedent; Not accessible to the public M.S. § 13.10, subd. 1(a)	Protected Nonpublic Not accessible to the data subject; Not accessible to the public M.S. § 13.02, subd. 13

* Individual is defined at Minn Stat. § 13.02, subd. 8. Individual means a natural person (a living human being). It does not mean any type of entity created by law, such as a corporation.

** Private and confidential data on decedents become public data 10 years after the death of the data subject and 30 years after the creation of the data.

3.1 People Entitled to Access. Any person has the right to inspect or view public data or to have an explanation of the meaning of the data. The person does not need to state his or her name or give the reason for the request, unless a statute specifically authorizes the City to request such information. The Responsible Authority may ask a person to provide identifying or clarifying information for the sole purpose of facilitating access to the data. Examples of when identifying information may be requested include, but are not limited to, obtaining a mailing address when the person has requested that copies be mailed or requesting identification when copies have been paid for by check. Additionally, any person has the right to obtain a copy of public data except in the case of copyrighted materials in the possession of the City for which the City does not have express written permission to reproduce.

3.1A Copyrighted Documents. Copyrighted public documents may be shown to anyone but shall not be reproduced or photocopied without express written permission from the copyright holder. (Exhibit 7)

3.1A1 The Responsible Authority reserves the right to refuse to provide copies of copyrighted data in accordance with the copyright law of the United States (Title 17, United States Code) which governs the making of photocopies or other reproductions of copyrighted material.

3.1A2 Public documents created by the City or its officials and employees on behalf of the City do not qualify for copyright protection and shall be available for viewing and reproduction in accordance with the Act. In certain cases, the City may enforce a copyright or acquire a patent for a computer software program or components of a program created by the City. In such cases, the data shall be treated as trade secret information.

3.2. Form of Request. The request for public data may be verbal or written. The Responsible Authority or designee may require a verbal request to be made in writing whenever a written request will assist the Responsible Authority or designee in performing his or her duties. (Exhibit 3).

3.3 Identification of Requesting Party. The Responsible Authority **may not** require the requesting party to provide identification to view public documents unless contact information is required in order to clarify the request. The Responsible Authority must verify the identity of the requesting party as a person entitled to reproductions when reproductions of copyrighted public data are requested. Identity can be established through personal knowledge, presentation of photo identification, comparison of the data subject's signature on a consent form with the person's signature in City records, or other reasonable means.

3.4 Form of Copies. Where public data is maintained in a computer storage medium, the Responsible Authority shall provide copies of the public data in electronic form upon request, provided a copy can reasonably be made in that form. The Responsible Authority is not required to provide the data in an electronic format or program that is different from the format or program in which the Responsible Authority maintains the data. The Responsible Authority may charge a fee for the actual cost of providing the copy.

3.5 Time Limits. Requests will be received and processed only at City Hall during normal business hours. If copies cannot be made at the time of the request, copies must be supplied as soon as reasonably possible. Whenever possible, the Responsible Authority will immediately allow the requesting person to inspect the public data. When providing an immediate response to the requester, it should not interfere with the City's efficient operations. The Responsible Authority may require that the requesting person make an appointment or return at a later time to inspect or to pick up copies of the requested data. When public data on individuals is requested by the individual data

subject and an immediate response is not possible, the authorized City employee will provide the data within 10 days of the date of the request, excluding Saturdays, Sundays and legal holidays.

3.6 Fees. Anyone may inspect or view public data for any reason without charge. Fees may be charged only if the requesting person asks for a copy or electronic transmittal of the data. Fees will be charged according to the City's current fee schedule and may not include time necessary to separate public from non-public data. Fees are established annually by resolution. A copy of the approved fee schedule is attached at Exhibit 2.

4.0 Access to Private and Confidential Data on Individuals. Information about individual persons is classified by law as public, private, or confidential. A list of the private and confidential information maintained by the City is contained in Appendix A.

4.1 People Entitled to Access.

4.1A Public information about an individual may be shown or given to anyone for any reason.

4.1B Private information about an individual may be shown or given to:

4.1B1 The individual, but only once every six months, unless a dispute has arisen or additional data has been collected or created.

4.1B2 A person who has been given access by the express written consent of the data subject. (Exhibit 6)

4.1B3 People, or another responsible authority, which are authorized access by federal or state law or by court order.

4.1B4 People within the City staff, the City Council, and outside agents (such as attorneys, insurance agents, etc.) whose work assignments or responsibilities reasonably require access.

4.1C Confidential information may not be given to the subject of the data, but may be given or shown to:

4.1C1 People who are authorized access by federal or state law or by court order.

4.1C2 People within the City staff, the City Council, and outside agents (such as attorneys, insurance agents, etc.) whose work assignments or responsibilities reasonably require access.

4.2 Form of Request. Any individual may request data verbally or in writing. Data will be released depending on whether or not the City has stored the data requested and whether the data is classified as public, private, or confidential. All requests to see private or confidential information must be made in writing in order to verify identity. The Responsible Authority will provide a form (Exhibit 3) to document the requesting party's identity, the information requested, and the City's response; however, any individual may request data verbally or in writing as long as the request is accompanied by documentation of the requesting party's identity and a detailed description of the information requested.

4.3 Identification of Requesting Party. The Responsible Authority **must** verify the identity of the requesting party as a person entitled to access when private or confidential data is requested. Identity can be established through personal knowledge, presentation of photo identification, comparison of the data subject's signature on a consent form with the person's signature in City records, or other reasonable means.

4.4 Time Limits. Requests will be received and processed at City Hall only during normal business hours. Access to the data will be provided as soon as is reasonably possible. Data requested by the individual data subject will be provided within 10 days of the date of the request, excluding Saturdays, Sundays and legal holidays if an immediate response is not possible.

4.5 Fees. Fees will be charged in the same manner as for public information and are summarized in Exhibit 2.

4.6 Summary Data. The term "summary data" refers to statistical records and reports derived from data on individuals but which does not identify an individual by name or reveal any other characteristic that could uniquely identify an individual. Summary data derived from private or confidential data is public. The Responsible Authority will prepare summary data upon request, if the request is in writing and the requesting party pays for the cost of preparation. The Responsible Authority must notify the requesting party about the estimated costs and collect these costs before preparing or supplying the summary data. This should be done within 10 days after receiving the request. If the summary data cannot be prepared within 10 days, the Responsible Authority must notify the requester of the anticipated time schedule and the reason for the delay.

Summary data may be prepared by "blacking out" personal identifiers, cutting out portions of the records that contain personal identifiers, creating a spreadsheet, programming computers to delete personal identifiers, or other reasonable means.

The Responsible Authority may ask an outside agency or person to prepare the summary data if: (1) the specific purpose is given in writing; (2) the agency or person agrees not to disclose the private or confidential data; and (3) the

Responsible Authority determines that access by this outside agency or person will not compromise the privacy of the private or confidential data. (Exhibit 4)

4.7 Records of Minors and Incapacitated Persons as defined in Minnesota Statutes Section 524.5-102, subdivision 6. The following applies to private (not confidential) data about people under the age of 18 and about those persons who are incapacitated as defined by Minnesota Statutes Section 524.5-102, subdivision 6.

4.7A Parent/Guardian Access. In addition to minors and incapacitated persons as defined above who may have access to private data, a parent may have access to private information about a minor or incapacitated person. For the purposes of these procedures, a “Parent” shall include guardians and individuals acting as parents or guardians in the absence of parents or guardians. A parent is presumed to have this right unless the minor has requested the Responsible Authority to withhold the data and withholding the data would be in the best interest of the minor, or unless the Responsible Authority has been given evidence that there is a state law, court order, or other legally binding document, that restricts the parent’s exercise of this right.

4.7B Notice to Minor and Incapacitated Persons. Before requesting private data from minors or incapacitated persons, City personnel must notify the minors and incapacitated persons that they may request that the information not be given to their parent or guardian(s). (Exhibit 5)

4.7C Denial of Parent or Guardian Access. The Responsible Authority may deny parent or guardian access to private data when the individual requests this denial and the Responsible Authority determines that withholding the data would be in the best interest of the individual. The request from the individual must be in writing, stating the reasons for the request. In determining the best interest of the individual, the Responsible Authority will consider:

4.7C1 Whether the individual is of sufficient age and maturity to explain the reasons and understand the consequences;

4.7C2 Whether denying access may protect the individual from physical or emotional harm;

4.7C3 Whether there are reasonable grounds to support the individual’s reasons; and

4.7C4 Whether the data concerns medical, dental, or other health services provided under Minnesota Statutes Sections 144.341 to 144.347. If so, the data may be released only if failure to inform

the parent or guardian would seriously jeopardize the health of the individual.

The Responsible Authority may also deny parental access without a request from the juvenile or incapacitated person under any state or federal statute that allows or requires denial of parental access and that provides standards for denying parental access

5.0 Access to Private and Confidential Data on Decedents. Private data on decedents means data which, prior to the death of the data subject, were classified by statute, federal law, or temporary classification as private data. Confidential data means data which, prior to the death of the data subject, were classified by statute, federal law, or temporary classification as confidential data. A list of the private and confidential information maintained by the City is contained in Appendix A. Information about individuals who are deceased will be treated the same as data that is about individuals who are living except:

5.0A Private and confidential data on decedents will become public data 10 years after the death of the data subject and 30 years after the creation of the data in accordance with Minnesota Statutes Section 13.10, subdivision 2. An individual is presumed dead if either 90 years have elapsed since the creation of the data or 90 years have elapsed since the individual's birth, whichever is earlier, except that an individual is not presumed to be dead if the Responsible Authority has information readily available to it indicating the individual is still living.

5.0B A representative of the decedent may exercise the rights that the decedent could have exercised as a living individual. A "representative of the decedent" means a personal representative of the estate of the decedent during the period of administration, or if no personal representative has been appointed or after discharge, the surviving spouse, any child of the decedent, or, if there is no surviving spouse or children, the parents of the decedent.

6.0 Access to Data not on Individuals. Information not about individuals is classified by law as public, nonpublic, and protected nonpublic. Information that is not about individuals will generally be treated the same as data about individuals. Nonpublic and protected nonpublic information, except for security information, becomes public either 10 years after it was created by the City or 10 years after the data was received or collected by the City unless the Responsible Authority reasonably determines that if the information was made public or made available to the data subject that the harm to the public or the data subject would outweigh the benefit to the public or the data subject.

6.1 People Entitled to Access.

6.1A Public information not about an individual may be shown to anyone. Copyrighted documents will not be reproduced or photocopied without express written permission from the copyright holder. (Exhibit 7)

6.1B Nonpublic information not about an individual may be shown or given to:

6.1B1 An authorized representative of the subject entity of the data, but only once every six months, unless a dispute has arisen or additional data has been collected.

6.1B2 A person who has been given access by the express written consent of the authorized representative of the entity which is the subject of the data. (Exhibit 6)

6.1B3 People who are authorized access by federal or state law or by court order.

6.1B4 People within the City staff, the City Council, and outside agents (such as attorneys, insurance agents, etc.) whose work assignments or responsibilities reasonably require access.

6.1C Protected Nonpublic information may not be given to the authorized representative of the entity, but may be given or shown to:

6.1C1 People who are authorized access by federal or state or by court order.

6.1C2 People within the City staff, the City Council, and outside agents (such as attorneys, insurance agents, etc.) whose work assignments or responsibilities reasonably require access.

6.2 Form of Request. Any person may request data verbally or in writing. Data will be released depending on whether or not the City has stored the data requested and whether the data is classified as public, nonpublic, protected nonpublic or is copyrighted.

All requests to view or receive a reproduction of nonpublic or protected nonpublic information must be made in writing in order to verify identity. All requests to receive a reproduction of copyrighted public, nonpublic or protected nonpublic information must be made in writing in order to determine if the request for copyrighted material qualifies for release under copyright law of the United States (Title 17, United States Code.) The Responsible Authority will provide a form (Exhibit 3) to document the requesting party's identity, the information requested, and the City's response; however, any person may request data verbally or in writing as long as the request includes documentation of the requesting party's identity and a detailed description of the information requested.

6.3 Identification of Requesting Party. The Responsible Authority must verify the identity of the requesting party as a person entitled to access when nonpublic or protected nonpublic data is requested. The Responsible Authority must also verify the identity of the requesting party as a person entitled to access when copies of copyrighted private, nonpublic, or protected nonpublic data is requested. Identity can be established through personal knowledge, presentation of photo identification, comparison of the data subject's signature on a consent form with the person's signature in City records, or other reasonable means.

6.4 Time Limits. Requests will be received and processed at City Hall only during normal business hours. The response must be immediate, if possible, or prompt and reasonable, if an immediate response is not possible.

6.5 Fees. Fees will be charged in the same manner as for public information and are summarized in Exhibit 2.

6.6 Accessibility of Records. Upon request by an individual, records must be made available within a reasonable time period to persons with disabilities in a manner consistent with state and federal laws prohibiting discrimination against persons with disabilities. Reasonable modifications must be made in any policies, practices and procedures that might otherwise deny equal access to records to individuals with disabilities. This requirement does not apply to (1) technology procured or developed prior to January 1, 2013, unless substantially modified or substantially enhanced after January 1, 2013 or (2) records that cannot be reasonably modified to be accessible without an undue burden as defined in Minnesota Statutes Section 16E.015, subdivision 4 to the public entity or (3) except as otherwise provided in Minnesota Statutes Chapter 16E.

7.0 Temporary Classification. If the Responsible Authority determines information not expressly classified by law should be protected, the Responsible Authority may apply to the Department of Administration Commissioner for permission to classify information as private, confidential, nonpublic or protected nonpublic for its own use and for the use of other governmental entities on a temporary basis. The application and the classification of the information shall be in accordance with Minnesota Statutes Section 13.06.

8.0 Denial of Access. If the Responsible Authority determines that the requested data is not accessible to the requesting party, the Responsible Authority must inform the requesting party verbally at the time of the request or in writing as soon after that as possible. The Responsible Authority must give the specific legal authority, including statutory section, for withholding the data. The Responsible Authority must place a verbal denial in writing upon request. This must also include the specific legal authority for the denial.

9.0 Collection of Data on Individuals. The collection and storage of information about individuals will be limited to that necessary for the administration and management

of the programs specifically authorized by the state legislature, City Council, or federal government.

9.1 Tennessee Warning. When an individual is asked to supply private or confidential information about the individual, the City employee requesting the information must give the individual a Tennessee Warning. (Exhibit 8; Exhibit 9)

9.1A This warning must contain the following:

9.1A1 The purpose and intended use of the requested data;

9.1A2 Whether the individual may refuse or is legally required to supply the requested data;

9.1A3 Any known consequences from supplying or refusing to supply the information; and

9.1A4 The identity of other persons or entities authorized by state or federal law to receive the data.

9.1B A Tennessee Warning is not required when:

9.1B1 An individual is requested to supply investigative data to a law enforcement officer;

9.1B2 The data subject is not an individual (e.g., the data subject is a corporation or partnership);

9.1B3 The data subject offers information that has not been requested by the City;

9.1B4 The information requested from the individual is about someone else;

9.1B5 The City receives information about the subject from someone else; or

9.1B6 The information requested from the subject is classified as public data.

9.1C A Tennessee Warning may be on a separate form (Exhibit 9) or may be incorporated into the form which requests the private or confidential data.

9.1D Collection of Data on Individuals through the Use of the City's Computer When an individual gains access to government information

or services through the City's computer, the City may create, collect, or maintain electronic access data or use its computer to install a cookie on an individual's computer. The City must inform individuals gaining access to the City's computer of the creation, collection, or maintenance of electronic access data or the City's use of cookies before requiring the individual to provide any data about the individual to the City. As part of that notice, the City must inform the individual how the data will be used and disseminated. Notwithstanding an individual's refusal to accept a cookie on its computer, the City must allow the individual to gain access to data or information, transfer data or information, or use government services by means of the City's computer. The provisions of this section do not apply to a cookie temporarily installed by the City on a person's computer during a single session on or visit to the City's web site if the cookie is installed only in a computer's memory and is deleted from the memory when the web site browser or application is closed.

9.2 Data Quality Procedures. The City is required to establish procedures to ensure that data on individuals are accurate, complete and current. The Responsible Authority shall work with employees that collect, use, or disseminate data on individuals to implement the following procedures:

9.2A At the time that data is collected from the individual data subject, the individual should be advised of his or her right to review and contest the accuracy or completeness of public or private data concerning him/herself.

9.2B An individual data subject should be encouraged to review his/her file for accuracy, completeness and currency.

9.2C Whenever possible and practical, collect data about an individual from the individual subject of the data rather than from third parties (e.g., birthdate, address, etc.). (This directive does not prohibit employees from collecting data from third parties.)

9.2D Design forms to collect objective types of data elements whenever possible, rather than data which calls for an opinion or conclusion or other subjective entry. Forms for the collection of data on individuals should request only necessary data.

9.2E Department heads should periodically review forms used to collect data on individuals. Data elements that are not necessary or that lend themselves to ambiguity or subjectivity should be removed and the forms redesigned.

9.2F Department heads should periodically conduct quality/validity checks on sample case files that contain data on individuals.

10.0 Data Accuracy, Currency and Completeness.

10.1 Challenge to Data Accuracy or Completeness. An individual who is the subject of public or private data may contest the accuracy or completeness of that data maintained by the City of which he or she is the subject. “Accurate” means the data are reasonably correct and free from error. “Complete” means the data describe all of the subject’s transactions with the City in a reasonable way.

To challenge the accuracy or completeness of data, the individual must notify the City’s Responsible Authority in writing describing the nature of the disagreement. The statement should describe why or how the data are inaccurate or incomplete and should also state what the individual wants the City to do to make the data accurate or complete. Within 30 days, the Responsible Authority or designee must respond and either (1) correct the data found to be inaccurate or incomplete and attempt to notify past recipients of inaccurate or incomplete data, including recipients named by the individual, or (2) notify the individual that the authority believes the data to be correct. Data in dispute shall be disclosed only if the individual’s statement of disagreement is included with the disclosed data. The Responsible Authority should provide the data subject with a written statement that informs the data subject of the right to appeal and should also provide a copy of Minnesota Rules Part 1205.1600.

An individual who is dissatisfied with the Responsible Authority’s action may appeal to the Commissioner of the Minnesota Department of Administration, using the contested case procedures under Minnesota Statutes Chapter 14. The Responsible Authority will correct any data if so ordered to do so by the Commissioner.

10.2 Employee Accuracy. All City employees will be requested, and given appropriate forms, to annually provide updated personal information to the Responsible Authority, as necessary for tax, insurance, emergency notification, and other personnel purposes. Other individuals who provide private or confidential information will also be encouraged to provide updated information when appropriate.

10.3 Review. Department heads should periodically review forms used to collect data on individuals to delete items that are not necessary and to clarify items that may be ambiguous. All records must be disposed of according to the City’s records retention schedule.

11.0 Policy for Ensuring the Security of Not Public Data.

11.1 Legal Requirement. The adoption of this Section by the City satisfies the requirement in Minnesota Statutes Section 13.05, subdivision 5 to establish procedures ensuring appropriate access to not public data. By incorporating employee access to not public data in the City's Data Inventory (see Appendix A), in the individual employee's position description, or both, the City's policy limits access to not public data to employees whose work assignment require reasonable access.

Please direct all questions regarding this Section to the Responsible Authority.

11.2 Data Inventory. Under the requirement in Minnesota Statutes Section 13.025, subdivision 1, the City has prepared a Data Inventory which identifies and describes all not public data on individuals maintained by the City. To comply with the requirement set forth in Minnesota Statutes Section 13.05, subdivision 5, the City has also modified its Data Inventory to represent the employees who have access to not public data.

11.3 Data Safeguards.

11.3A Not public data will be stored by the City in files or databases which are not readily accessible to individuals who do not have authorized access and will be secured during hours when the offices are closed.

11.3B Not public data must be kept only in City offices, except when necessary for City business.

11.3C The City will assign appropriate security roles to its employees, limit employee access to appropriate shared network drives and implement password protections for not public electronic data.

11.3D Only those City employees whose job responsibilities require them to have access will be allowed access to City files and records that contain not public data. Employee position descriptions will contain provisions identifying any not public data accessible to the employee when a work assignment reasonably requires access. If a City employee does not have a work assignment allowing access to the not public data, the City will ensure that the not public data are secure. The City's employees will be instructed to:

11.3D1 Release or disclose not public data only to those persons, within and outside of the City, who are authorized by law to have access to the data;

11.3D2 Not leave not public data where unauthorized individuals might see it;

11.3D3 Password protect their computers and lock their computers before leaving work stations;

11.3D4 Secure not public data within locked work spaces and in locked file cabinets; and

11.3D5 Shred not public data before disposing of them.

In the event of a temporary duty assigned to a City employee, the employee may access certain not public data for as long as the work is assigned to the employee.

11.4 Data Sharing with Authorized Entities or Individuals

11.4A When a contract with an outside party requires access to not public data, the contracting party will be required to use and disseminate the information consistent with the Act. The City must include in a written contract the language contained in Exhibit 10 or substantially similar language.

11.4B In addition to the employees listed in the City's data inventory (see Appendix A), the Responsible Authority, the City's criminal prosecutor, the City Attorney, the City Engineer, the City Building Inspector and the Economic Development Authority Executive Director may have access to all not public data maintained by the City if necessary for specified duties. Any access to not public data will be strictly limited to the data necessary to complete the work assignment.

11.4C State or federal law may authorize the sharing of not public data in specific circumstances. Not public data may be shared with another entity if a federal or state law allows it or mandates it. Individuals will have notice of any sharing in applicable Tennessee warnings or the City will obtain the individual's informed consent. Any sharing of not public data will be strictly limited to the data necessary or required to comply with the applicable law.

11.5 Penalties for Unlawfully Accessing Not Public Data. The City will utilize penalties for unlawful access by its employees to not public data as provided for in Minnesota Statutes Section 13.09, if necessary. Penalties include suspension, dismissal, or referring the matter to the appropriate prosecutorial authority who may pursue a criminal misdemeanor charge.

**EXHIBIT 1
LIST OF DESIGNEES**

The Minnesota Data Practices Act establishes a system for compilation and distribution of data gathered by government agencies. City of Lake City
Tennesen Warning Form

It is the City of Lake City’s responsibility to inform potential employees of their privacy rights. Please carefully read the Tennesen Warning provided below. Sign and date the form and return it with your application. Your signature indicates that you have received information regarding your rights as they pertain to the Minnesota Government Data Practices Act.

In accordance with the Minnesota Government Data Practices Act, the City of Lake City is required to inform you of your rights as they relate to the private information collected from you. Private data is information that is available to you, but not to the public; the personal information we collect about you is private. Minnesota State Statutes 13.04 and 13.43 are two sections that govern what affects you as an applicant for employment at the City of Lake City. All data collected is considered private except for the following:

1. Your Veteran’s status;
2. Relevant test scores;
3. Your job history;
4. Your education and training; and
5. Your work availability.

Your name is considered to be private information; however, if you are selected to be interviewed as a finalist, your name becomes public information.

The data supplied by you may be used for such other purposes as may be determined to be necessary in the administration of personnel policies, rules, and regulations of the City of Lake City. Furnishing social security numbers is voluntary for applicants to the City of Lake City, but refusal to supply other requested information would mean that your application for employment might not be considered.

Private data is available only to you, appropriate City employees, and others as provided by state and federal laws who have a bona fide need for the data. Public data is available to anyone requesting it and consists of all data furnished in the application for employment that is not designated in this notices as private data.

The information you give about yourself is needed to identify you and to assist the City of Lake City in determining your suitability for the position for which you are applying.

I have read and understand the information given above regarding the Minnesota Data Practices Act.

SAMPLE CONTRACT PROVISION

Data Practices Compliance. Contractor will have access to data collected or maintained by the City to the extent necessary to perform Contractor's obligation under this contract. Contractor acknowledges that, pursuant to Minnesota Statutes Section 13.05, subdivision 11, all of the data created, collected, received, stored, used, maintained or disseminated by Contractor in performing the contract are subject to the requirements of the Minnesota Government Data Practices Act (the "Act"), Minnesota Statutes Chapter 13. Contractor is required to comply with the requirements of the Act as if it were a government entity. Contractor acknowledges that the remedies provided in Minnesota Statutes Section 13.08 apply to Contractor with respect to such data. Contractor will notify the City of all requests for data that Contractor receives. Contractor agrees to defend and indemnify the City from any claim, liability, or damage that result from Contractor's violation of the Act or this section of the contract. Upon termination of this contract, Contractor agrees to return data to the City as requested by the City. The obligations of this section of the contract, including the obligation to defend and indemnify the City, shall survive the termination of this Contract and shall continue so long as the data exists.

EXHIBIT 11
Building Permit/Plans
DATA PRACTICES ADVISORY

You may be required to submit building plans with your building permit application so that the City of Lake City can determine whether or not your building permit application should be approved. If you do not submit plans when they are required, your building permit will not be approved. The Minnesota Government Data Practices Act establishes a presumption that all government data are public and are accessible by the public for both inspection and copying unless there is a federal law, a state statute, or a temporary classification of data that provides that certain data are not public. Minnesota Statutes Section 13.01 defines “government data” as being all data collected, created, received, maintained, or disseminated by the City.

The Government Data Practices Act allows building plans to be classified as non-public ONLY if they contain the following information:

Security information defined by Minnesota Statutes Section 13.37 as being “government data the disclosure of which the responsible authority determines would be likely to substantially jeopardize the security of information, possessions, individuals or property against theft, tampering, improper use, attempted escape, illegal disclosure, trespass, or physical injury.”

AND / OR

Trade Secret information defined by Minnesota Statutes Section 13.37 as being “government data, including a formula, pattern, compilation, program, device, method, technique or process (1) that was supplied by the affected individual or organization, (2) that is the subject of efforts by the individual or organization that are reasonable under the circumstances to maintain its secrecy, and (3) that derives independent economic value, actual or potential, from not being generally known to, and not being readily ascertainable by proper means by, other persons who can obtain economic value from its disclosure or use.”

Building plans submitted to the City are generally public information and will be presumed to be available for copying and release to the public. If you hold a copyright to the plans and do not want them copied for the public, then you will need to indicate as such below. Also, if you believe that your building plans qualify for the classification of nonpublic data you must provide documentation verifying your claim. The responsible authority for the City of Lake City will determine whether or not the plans qualify for nonpublic data classification within 10 business days of the request. .

Building plans and related documents submitted to the City are presumed to be public and by submitting them and signing this document you are expressly giving permission to the City to make copies for the City’s use and to make available to the public upon request unless you indicate otherwise as follows:

_____ **The building plans I have submitted contain SECURITY INFORMATION as defined by Minn. Stat. § 13.37, subd. 1 (a) and are to be treated as protected nonpublic data.** I understand I must provide an explanation (below) to support my claim that the information I am providing constitutes security information under law.

_____ **The building plans I have submitted contain TRADE SECRET INFORMATION as defined by Minn. Stat. § 13.37, subd. 1 (b) and are to be treated as protected nonpublic data.** I understand I must provide an explanation (below) to support my claim that the information I am providing constitutes trade secret information under law.

_____ **The building plans I have submitted are COPYRIGHTED under and protected by the Federal Copyright Act and I do not give permission for them to be copied for release to the public.** However, I understand the plans are considered public information under Minnesota law and may be viewed by the public.
