

HWY 61 WATERMAIN PROJECT PUBLIC NOTICE OF CHLORINATING

During the highway project the new watermain will have chlorine administered to ensure a continued supply of safe drinking water. Most affected will be the downtown area and Hwy 61 corridor but will also affect the complete water system, so please plan accordingly. This will occur from April 12th, 2020 and continue through the construction season. Watch for future notices in all of our media resources.

Thank you for your cooperation.
